**LAROUSSE DU XX<sup>e</sup> SIÈCLE**

Nos lecteurs savent que la Librairie Larousse, qui depuis son fondateur tient le flambeau de l'encyclopédie, a entrepris de renouveler l'inventaire des connaissances dans un grand ouvrage : le Larousse du XX<sup>e</sup> Siècle, en six volumes.

Combien un tel ouvrage était nécessaire, il suffit de parcourir le Tome V, qui vient de paraître, pour s'en rendre compte. Les articles de Papin, Paquet, Pétrole, Phonographe, Radiophonie, Régulateur, Rhénane, etc., etc., nous présentent les innombrables progrès réalisés dans les lettres, les sciences, les arts, les métiers, les sports, etc., etc., et nous permettent de saisir l'ampleur des transformations survenues dans certains pays comme la Pologne et le désespoir de la France d'après la guerre, le Pacte de Paris, ou de mouvements tels que le Panislamisme, le Passivisme, etc., etc.

Facile à consulter, solidement documenté, il convient à un ouvrage de référence, à la collaboration de l'élite, la Larousse du XX<sup>e</sup> Siècle apparaît comme un bel ouvrage de référence. Le Tome V contient 1708 pages, avec cartes, et 78 hors-texte. Certaines pages : Natchez, Nègres, Océanographie, Océans, Océanographie, Océans, etc., etc., sont illustrées de gravures et de photographies. L'ouvrage est édité par la Librairie Larousse, 17, rue de la Harpe, Paris.

**BIBLIOGRAPHIE**

**Feignants processés**

L'honneur, capable d'une telle proesse, qui dura près de vingt ans, de tolérer l'horrible contagion pour mettre de la joie dans les vies vaines et dans les désespoirs de milliers de Français, parés de force sur l'île de Molokai, a été trouvé en son cœur par un homme, un homme qui, par sa modestie et son dévouement, a été le plus grand des hommes de son époque. C'est le livre de M. P. Danlos, romancier, journaliste et passionné de son sujet.
