

NOUVELLES ÉCONOMIQUES ET FINANCIÈRES

La taxe anglaise de « défense nationale »

Après le retrait de son premier projet de loi sur la défense nationale, le chancelier de l'Échiquier a élaboré un nouveau projet.

La nouvelle contribution à la défense nationale portera sur tous les bénéfices de l'industrie et du commerce, calculés d'après les mêmes principes que pour l'impôt sur le revenu.

Le gouvernement Collijn continue ainsi la victoire de sa politique financière. L'encasement métallique de la Banque est resté de 25 millions de florins au début de l'exercice 1936-1937.

Depuis la revue du 15 mai, notre marché a encore fait preuve d'une très bonne tenue.

Nous constatons le relâchement momentané des diverses qualités des provenances de Bagdad, dont la France consommait des quantités importantes.
