

Mais comment faites-vous donc pour avoir des nappes d'une blancheur aussi éclatante?

R. C'est simple: je les lave de façon à les rendre vraiment propres, ainsi, elles deviennent, naturellement, parfaitement blanches

D. Evidemment; mais les miennes aussi devraient être absolument propres puisque, non contente de les faire tremper et bouillir, je les frotte ensuite énergiquement!

R. Vous faites erreur, ma chère. Votre linge ne sera jamais réellement blanc tant que vous n'emploierez pas Persil dont les composants oxygénés possèdent un pouvoir supplémentaire de nettoyage...
